## Independent Auditor's Report

To the Board of Trustees of  
Omidyar Network Fund, Inc.

We have audited the accompanying consolidated financial statements of Omidyar Network Fund, Inc. and its subsidiaries (the "Foundation"), which comprise the consolidated statements of financial position as of December 31, 2015 and 2014, and the related consolidated statements of activities and changes in net assets, and cash flows for the years then ended.

### ***Management's Responsibility for the Consolidated Financial Statements***

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express an opinion on the consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Foundation's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Foundation's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### ***Opinion***

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Foundation at December 31, 2015 and 2014, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

## Notes to Consolidated Financial Statements

### December 31, 2015 and 2014

---

#### 1. Organization

Omidyar Network Fund, Inc. (the “Foundation”) is a 501(c)(3) entity incorporated in the State of Delaware. The purpose of the Foundation is to support organizations that create opportunities for people to improve their lives, thereby catalyzing economic and social change. In September 2015, the Foundation formed a wholly-owned subsidiary, ONFI Brazil LLC, to expand activities in Brazil.

#### 2. Summary of Significant Accounting Policies

##### **Basis of Presentation**

The accompanying consolidated financial statements of the Foundation include the accounts of ONFI Brazil LLC. All intercompany balances and transactions have been eliminated.

##### **Basis of Accounting**

The consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America applicable to nonprofit organizations.

Revenues, gains or losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulation or by law. Expenses are reported as decreases in unrestricted net assets.

Contributions are recognized at fair value in the period received. The Foundation has been funded through contributions received from the Pierre M. Omidyar Trust (“the Trust”), a related party. To date, such contributions have been unrestricted.

##### **Unrestricted Net Assets**

Unrestricted net assets represent resources that are not subject to donor-imposed restrictions and are available to support the Foundation’s activities.

##### **Uses of Estimates**

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

##### **Cash and Cash Equivalents**

The Foundation considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. The carrying amount of cash and cash equivalents approximates fair value due to short-term maturities of the instruments. The Foundation deposits cash and cash equivalents with high credit quality financial institutions. At times, such amounts may exceed federally insured limits.

##### **Investments**

Investments, including program and mission related investments, are reported at fair value. Fair value is defined as the amount at which an asset could be exchanged between unrelated willing market participants, in an orderly transaction at the measurement date (i.e., the exit price). Investments are classified as program or mission related investments when they have a direct link to the Foundation’s strategic purpose.

## **Notes to Consolidated Financial Statements**

### **December 31, 2015 and 2014**

---

#### Securities

Securities listed on a securities exchange are valued at the last quoted sale price from the principal market on which the security is traded. Investments in open-end mutual funds are valued at the closing net asset value. Securities that trade in over-the-counter markets, including most debt and convertible securities, are valued within the range of the most recent quoted bid and ask prices or if such quotes are not available may be valued using evaluated prices determined by the Foundation's pricing services. The Foundation's pricing services may use valuation models which consider information with respect to comparable bond and note transactions, quotations from bond dealers, conversion premiums, interest rate spreads and yield curves to determine current value.

#### Private Equity

Private equity investments are not registered for public sale and are carried at estimated fair value as determined in good faith by the Foundation's management after consideration of available relevant financial, operational, and economic data. Significant factors considered in the estimation of fair value include, but are not limited to, the price at which the investment was acquired, the nature of the investment, local market conditions, trading values on public exchanges for comparable securities, current and projected operating performance and financing transactions subsequent to the acquisition of the investment. The inputs into the determination of fair value require significant management judgment. Due to the inherent uncertainty of these estimates, these values may differ materially from the values that would have been used had a ready market for these investments existed.

#### Limited Partnerships

Investments in limited partnerships, which include private equity funds, venture capital funds and hedge funds, are generally subject to certain withdrawal restrictions. Because no readily ascertainable market value exists for these investments, the estimated fair values are determined in good faith by the Foundation's management on the basis of the latest available valuations of the Foundation's pro-rata interest in the net assets of the partnership as determined in good faith by the general partner of each partnership.

The Foundation follows the authoritative guidance for estimating the fair value of investments in investment companies, including limited partnerships that have calculated net asset value in accordance with the specialized accounting guidance for investment companies. Accordingly, in circumstances in which the fair value of an investment in a limited partnership is not readily determinable, the Foundation estimates the fair value of an investment in a limited partnership using the net asset value of the investment without further adjustment, if the net asset value per share of the investment is determined in accordance with the specialized accounting guidance for investment companies as of the reporting entity's measurement date.

Management may determine to adjust the valuations after consideration of relevant factors that market participants would consider in a transaction for an interest in the partnership including redemption restrictions.

#### **Investment Income**

Dividends and interest are accrued as earned and are presented on the Consolidated Statement of Activities and Changes in Net Assets net of investment expenses.

#### **Grants**

Grant expenses include unconditional grants. Unconditional grants are expensed when grant agreements are executed and effective. Certain grants may be subject to the grantee fulfilling

specific conditions. Such conditional grants are considered commitments and are not recorded as expense until the conditions of the grant are met.

**Recent Accounting Pronouncements**

In February 2015, the FASB issued ASU No. 2015-02, Amendments to the Consolidation Analysis, which provides updated consolidation guidance to all reporting entities. The methodology of determining whether limited partnerships and similar entities are variable interest entities or voting interest entities would be relevant to the Company. This ASU is effective for the annual period ending after December 15, 2016 and for interim periods within fiscal years beginning after December 15, 2017. The Foundation is currently evaluating the potential impact, if any, of the adoption of these amendments on its consolidated financial statements.

In May 2015, the FASB issued ASU 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, Fair Value Measurement, from categorization within the fair value hierarchy. The guidance requires retrospective application and would be relevant to the Foundation. This ASU is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. The Foundation is currently evaluating the potential impact, if any, of the adoption of these amendments on its consolidated financial statements.

The unfunded commitments to private equity and venture capital funds can be called at any time at the request of the general partners and are not accrued until called.

**5. Investment Valuation**

The accounting standard over fair value measurements established a framework for measuring fair value, and expands disclosures about fair value measurements. The standard prioritizes, within the measurement of fair value, the use of market-based information over entity-specific information and establishes a three-level hierarchy for fair value measurements based on the nature of inputs used in the valuation of an asset or liability as of the measurement date.

The three-level hierarchy for fair value measurements is defined as follows:

- Level 1 Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets;
- Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, and inputs that are observable for the asset or liability other than quoted prices, either directly or indirectly, including inputs in markets that are not considered to be active; and
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The inputs into the determination of fair value require significant management judgment.

The categorization of an investment within the valuation hierarchy is based upon the lowest level input that is significant to the fair value measurement.

The Foundation uses significant unobservable inputs in the fair value measurements of certain direct private equity investments. The following table provides quantitative information about the valuation techniques and significant unobservable inputs used to determine the fair value of such investments at December 31, 2015.

	<b>Fair Value</b>	<b>Valuation Technique(s)</b>	<b>Unobservable Input</b>	<b>Assumptions or Range</b>
Direct private equity investment - education	\$ 3,495,700	Option pricing model	Expected volatility Time to exit (years)	55.0% - 70.3% 1.5 - 6.0

These assets include financial instruments for which determination of fair value is based on prices from prior transactions or third party pricing information without adjustments from management and financial instruments for which fair value is determined using the net asset value (NAV) as a practical expedient.

The following table provides quantitative information about the valuation techniques and significant unobservable inputs used to determine the fair value of such investments at December 31, 2014.
